Pastor: Rev. Fred Bennett

Sunday school 10 a.m.
Morning worship 11 a.m.
Evening service 7:30 p.m.
Midweek meeting:
Wednesday 7:30 p.m.
A cordial welcome awaits you.

The service at Central United church, on Sunday evening next will inaugurate CGIT week in Blainmore when the sermon subject will be "Our Personal Influence". There will be a choir of CGIT members which will give two special numbers. You are especially invited to be present at this service.

Lethbridge's two junior "B" entries were crushed rather convincingly yesterday in the playoff games at the arena. The Sea Cadet-Medicine Hat game, which Hatters won, was sloppily played and didn't provide much entertainment for the 600 or more fans in attendance. The second game between the Columbus Club and Blainmore, which the "Pass boys won exceedingly easily, was much better and there was enough action and spirit in it to take care of the first contest as well. Young Vejprava for Blainmore, a son of the famous Tony, played a smart game and looks as if he'll go places in the hockey world. Stockily built, the swarthy youngster must have reminded many of the fans of his father when the old boy played here in the old Crow's Nest League. —Lorimer Fenwick in Lethbridge Herald.

SIMPLY DELICIOUS!
The Superb flavor of Maxwell House makes it the most popular of all brands of coffee. It has extra flavor because it contains choice Latin-American coffees.

DEATH OF MRS. JOHN DOBEK

This week the sympathy of the entire community goes out to Mr. and Mrs. Mark Sartor and family in the passing of the youngest daughter, Mrs. John Dobe (nee Doris Caroline Sartor) which occurred at Blainmore at the home of her sister, Mrs. Erna Basso, at 2:20 p.m. on Wednesday.

Born in Blainmore in March of 1918, deceased was raised and educated here. She had been in failing health for the past year, first taking sick while her husband was serving in the armed forces. She was a member of St. Anne's Catholic church, for a while active in Catholic Youth Organization affairs and prior to her passing was secretary of the local Catholic Women's League, and will be missed in church circles.

Funeral will be held tomorrow morning, leaving the home on Cement street a 10:45 for requiem high mass at 11 o'clock at St. Anne's church, Dean M. A. Harrington conducting with committal in St. Anne's cemetery.

Surviving are the parents; two sisters, Mrs. E. Basso (Mary) of Blainmore and Mrs. E. Wood (Irene) of Coleman; a niece and nephew, Shirley Wood and Mark Basso, also Mr. C. Minznie, uncle of deceased.

Mr. and Mrs. Sartor are old timers of the Crow's Nest Pass, having resided in the district for over 40 years. Learning of their daughter's serious illness six weeks ago they arrived from Kelowna, B.C., and remained here. It is a little over a year since they left Blainmore to reside at Kelowna.

HILLCREST HAPPENINGS

Mr. M. Perby was a Vernon, B.C. visitor this week.

Mr. W. Moser was a Calgary visitor last week, attending the Associated Grocers' convention.

Mr. and Mrs. W. Webster were called to Calgary last week, to be with Mr. Webster's mother, who is critically ill.

Mr. Joe Gedrits is a patient in the Coleman hospital.

Mrs. Wojtula, a Scottish war bride, and young sister, Mary MacDonald, arrived in Lethbridge recently. Mr. and Mrs. Wojtula have established their home here.

Mr. Ken Thornton has sold his home to Mr. John Brown. Mr. and Mrs. Thornton intend to reside in Blainmore.

Mr. D. Halton is a business visitor in Calgary this week.

The regular monthly meeting of the United Church Women's Association was held at the home of Mrs. E. Rhodes on Thursday, February 6. After the business was disposed of, new officers for the present year were elected, as follows: president, Mrs. C. Seville; vice-president, Mrs. W. Moser; secretary-treasurer, Mrs. J. Craig. The sale committee consists of Mrs. C. Seville, Mrs. M. Douglas, Mrs. W. Thomas and Mrs. D. Halton. At the close of the meeting lunch was served by the hostess.

A United church youth group has been newly organized under the leadership of Mr. J. Brown. Mrs. C. Seville, Mrs. Angus Grant, and Mrs. J. Hyslop. Officers for the group are: president, Lamoun Webster; vice-president, Doug Hyslop; sec.-treas., Vivian Clark. This group is in connection with the United church youth choir, of which Mrs. Seville is leader and Mrs. Grand organist.

The "Busy Bee" club held their meeting this week at the home of Mrs. J. Hyslop.

"If you will make the boy wear his hair long, I at least insist on getting him boxing lessons."
"Why?"
"A boy with long hair has got to know how to fight."

SKI MEET A SUCCESS

Even the elements put on their Sunday best behavior to make the CNP Ski Club third annual ski tournament a grand success. The quiet sunny day brought out skiers and spectators alike to enjoy the thrills and spills. The juveniles set the day off to an early start with some fine racing and the junior men in their downhill races set a speedy course to be followed throughout the day.

By noon a bus and several private cars had brought a large crowd of skiers from Lethbridge, Waterton, Burnie, Crow's Nest and other points. The run was opened for general skiing during the noon hour. The many beginners were given instruction by Mr. R. Rault of Lethbridge, the general manager of the day's events.

During the afternoon the junior slalom and ladies' senior events were run off before a large crowd of spectators. The big event of the day proved to be the senior men's downhill, which was run from the top of the mountain. In his address to the public Mr. Rault estimated the speed of the skiers coming down at between 30 and 45 miles per hour. It proved an exciting race with the last runners rather handicapped by numerous "bath-tubs" created by the earlier contestants. The open prize went to C. Goble of Waterton, who came down in 1 minute and 42 seconds. The closed prize went to Richard Antonenko of Coleman, whose time was 1 minute and 55 seconds. There were 17 runners in the event.

Due to the lack of time, the senior men's slalom, the last event of the day, was made a shorter run than had been planned.

After a hearty supper at the Greenhill Grill the prizes and trophies were presented to the winners by Mr. Steve Tindus, vice-president of the club. A vote of thanks for a most enjoyable day was proposed by Mr. Goudwin on behalf of the Lethbridge club.

From the club and all the skiers a vote of thanks goes out to all those willing helpers who gave so generously of their time and labor. Special thanks go to the Blainmore Lions for filling in wherever they were needed.

Winners of 3rd annual C. N. P. Ski Club meet on Feb. 9:

Boys' juvenile: Downhill, Gordon Vejprava, Blainmore, 36.5 seconds; slalom, Gordon Vejprava, 30 sec.

Boys' Junior: Downhill, open, C. Goble, Waterton, 20.5 seconds; closed, B. Lach, Blainmore, 27.5 seconds; slalom, open, R. Antonenko, Coleman, 29.6 seconds; closed, R. Antonenko, 29.6 seconds.

Men's Senior: Downhill, open, C. Goble, Waterton, 1:42; closed, R. Antonenko, 1:54.4; slalom, open, C. Little, Crow's Nest, 22.75 seconds; closed, C. Little, 22.75 sec.

Ladies' Senior: Downhill, open, Miss E. Morris, Coleman, 45 seconds; closed, Miss E. Morris, 45 seconds; 2nd, Mrs. E. Rault, Lethbridge, 57 seconds; 3rd, Mrs. B. Costigan, Blainmore, 1:15. Slalom, open, Miss E. Morris, 41.1 seconds; closed, 1st, Miss E. Morris, 41.1 seconds; 2nd, Mrs. B. Costigan, 53.4 seconds; 3rd, Mrs. E. Rault, 1:18.

ENGAGE DANCE TEACHER

The Junior Amateur Athletic Association have secured the services of Miss K. McNeil, of Hillcrest, as dancing teacher, and a class of 10 school girls and five business girls are receiving instruction.

The association have rented the second floor of the Legion hall, purchased a piano and expect to hold social evenings as well. Boxing instruction has also started and several of the boys are still taking instruction in tumbling.

Miss McNeil, an English girl, comes highly recommended as a dancing teacher. She began her career at an early age and has been teaching a class in Blainmore for some time. Her ambition is to become a professional dancer.—Pincher Creek Echo.

We wonder how long it will take Richard to open that door.

PLANE CRASH NEAR COLEMAN

A private plane, belonging to the Mann's Construction Company, Calgary crashed at approximately 10 a.m. this morning 20 yards east of the Skatelin Emergency landing strip fatally injuring its four passengers. Occupants of the plane were Verge Kraemer, Stanley Moseeson, Allan Dryden and Leo Spohn. The latter was still alive when rescuers arrived on the scene and was taken to Coleman Miner's Hospital where he passed away at 2:28 today.

The plane had twice circled the field and was coming in for the third time when it got too low, hit a tree alongside the Old Man river which caused it to swerve into a rocky bank on the north side of the river where it smashed up.

An inquest is to be held with Coroner Fred Antrobus presiding. Time of the inquest has not yet been determined.

THE SPIEL IS OVER

Play in the umpteenth annual CNP Curling Association bonspiel practically came to an end last night, when games in all six events were decided. Play opened last Saturday evening with 32 rinks entered and ice in Blainmore and Coleman was in constant use to accommodate all draws. Mild weather of the past two days made it necessary to stage semi-finals and finals on rather sweaty and watery ice.

Following are prize winners and personnel of cup-winning rinks, as far as The Graphic has been able to ascertain.

Lethbridge Brewery—H. Bruning (Blainmore); H. Dancy, A. Vangot-smolen, F. M. Thompson, 2nd, J. O. Stewart, Macleod, 3rd, E. Ledes, Coleman; 4th, W. R. Myers, Taber. Blainmore Merchants—H. Carmichael (Blainmore); C. Maniquet, W. L. Evans, T. E. Mudman, 2nd, J. O. Stewart, Macleod; 3rd, W. Duncas, Bellevue; 4th, L. Maffoli, Fernie.

Grand Cos Inn (Grand Union, Coleman); Cosmopolitan hotel, Blainmore, Bellevue Inn, Bellevue—W. R. Myers (Taber), N. E. Perdic, T. Kerkhoff, G. Powell, 2nd, W. Kerr, Bellevue; 3rd, Cook, Taber; 4th, A. Vansacker, Fernie.

International—H. Boulton (Coleman), R. Cousins, W. Liddle, E. Foster, 2nd, H. Carmichael, Blainmore; 3rd, BEST No. 7, Blainmore; 4th, A. Vansacker, Fernie.

Two events, in the Trites-Wood and Grand Challenge cups, are yet to be finished. K. Stewart and A. Vansacker, both of Fernie, will play off in the Trites-Wood, while W. Hoggan, and the Excel rinks both of Coleman, are finalists in the Grand Challenge. With a game each to play, Van-

ARBITRATION BOARD CHAIRMAN APPOINTED

Fred Antrobus, police magistrate, has been appointed by the provincial government to act as chairman of the Arbitration Board set up to enquire in the salary dispute at present existing between the local school board and its teaching staff.

The teachers are represented on the Board by Mr. McKim Ross, of Edmonton, and the school board by Mr. Wm. Chappell, of Blainmore. Mr. Antrobus is now making arrangements to hold the hearing, which will very likely be held in Coleman.

ANNUAL BANQUET CNP CURLING ASSOCIATION

The annual banquet of the Crow's Nest Pass Curling Association, the annual bonspiel of which is in progress in the Pass this week, was held at the Turtle Mountain Playgrounds on Tuesday night and was an unqualified success. The main dining room was very well filled with curlers from as far west as Fernie and east as Taber.

President Harvey Carmichael presided and kept the program moving along at a nice pace. Following the reading of last year's minutes the veteran William Kerr submitted the invitation of the Bellevue club to have the bonspiel at Bellevue on artificial ice in February, 1948. The invitation was accepted unanimously. Mr. Kerr was then honored by being elected president of the Association for 1947-48.

Many of the prominent curlers in each town were called upon for brief addresses. Mr. Andrew Dow spoke for Coleman and invited all visiting curlers to inspect Coleman's rink before leaving for their respective homes. He stated he planned on extending the rink from four sheets of ice to six. He also disclosed his plans for promoting interest in the game among young school boys and placing at least one interested youth in each club rink next season. He desired to see the Crow's Nest Pass bonspiel grow to twice its present size and become the principal bonspiel in this territory.

Waldo Greenway, old time Lethbridge curler, was absent for the first time in many years, and the Association sent him a wire expressing its regret at his absence at the bonspiel and banquet.

Miss Audrey Sterbe, Bellevue songstress, delighted the large audience with two songs. Agente-man from Pincher Creek gave a number of recitations which were well received.

Sacker and Excel are tied with 11 wins and 4 losses for Grand aggregate.

Mrs. Evan Morgan left for Lamont, Sunday to visit her daughter, Mrs. Shermeta, who is in the hospital recovering from injuries received in a car accident.

MAYOR WILLIAMS RETURNED TO OFFICE

Mayor Enoch Williams was returned to office for his sixth term when the final count was made Monday, E. Williams 473, R. Perissini 176. Candidates for council were elected by acclamation.

Council met on Tuesday and R. L. (Lew) Williams, for a two-year term as councillor, replacing W. Arland, resigned, and G. Rees, for a one-year term, replacing J. Ferstay, resigned, were sworn in as councillors.

At the next regular meeting of council W. Gray and W. Jallop will be formerly sworn in for three-year terms, and council organized for the year.

HANG ON

Success is failure turned inside out. The silver tint of clouds of doubt, And you never can tell how close you are, It may be near when it seems afar; So stick to the fight when you're hardest hit, It's when things seem worst that you must not quit.

COWLEY HAPPENINGS

After spending several weeks at Red Deer, Mrs. Marcel Dejax has returned home. She was accompanied by her mother, Mrs. Valetska, of that place.

I. C. Petiot, Adolph Petiot and Marcel Dumont went to Hanna on Monday to attend the funeral of the late Mrs. Clovis Bonnier.

A. Wende returned home in Saturday from New Westminster where he has been taking health treatments for the past two months.

The Ladies' Aid of the United church held the monthly meeting at the home of Mr. Arthur Tustian on Thursday afternoon, February 6th. When arrangements were made to hold a tea and miscellaneous sale of home cooking, etc., in the Masonic hall on Saturday afternoon, February 15th commemorating St. Valentine's Day.

After a lapse of several years Sunday school classes are again being conducted in the United church here at eleven o'clock every Sunday morning. Sunday school classes still continue to be held in the Anglican church also at the same hour. There is a good attendance at both churches.

The community was shocked on Sunday, when news was flashed by radio telling of the sudden death of Mrs. Clovis Bonnier (nee Miss Avis Horning of the Cowley hotel) at her home at Hanna, on Sunday morning. After her marriage, she and her husband took up residence on a ranch in the Porcupine Hills District where they resided a few years when they moved to Hanna, settling again on a ranch where they have since made their home. To this union one son, Clovis Jr., was born who now is around seven years of age.

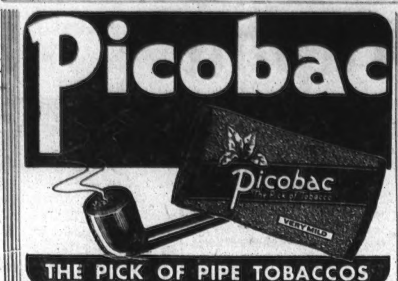

The Christmas concert at the Ten-nesse school which was forced to be postponed owing to bad weather and blocked country roads by gristle snow making travel impossible at the time, was held under the supervision of the teacher, Mrs. Hunt, assisted by Mrs. Claud Hammond and Claudia Hammond on the afternoon of Friday, Feb. 7. After a pleasing program was rendered by the pupils, an interesting contest of flowers and quiz questions was enjoyed when all present joined in the fun. L. M. Cleland was chairman on this occasion. During intermission Ross Hunt entertained with several numbers on the violin, after which a delicious luncheon was served. A most enjoyable time was reported.

No new world without new hearts in men.

More Profit in Early Chicks

British vents more Canadian shell eggs in the fall and winter months and is prepared to pay prices that will assure a profitable return to producers. During chicks in February and March means birds that will be laying well in the early fall. Current contracts with British assure a market for millions of dozens of Canadian eggs. The best way to get the most profit from this market is to buy early chicks. When the chicks are delivered don't overfeed them in the brooder.

Picobac

THE PICK OF PIPE TOBACCOS

An Agency For Peace

THE PHRASE "ONE WORLD" has been used in many connections in recent years and it has become very familiar to us all. It has now been taken up by the United Nations Educational, Scientific, and Cultural Organization which has summarized its objective as "to make the peoples of the world live and think in terms of one world." It is possible that this organization, in which forty-four countries are represented, may have a far-reaching effect on the future outlook of many thousands of people, for it plans to work through departments of education, teachers, and adult education leaders to promote international understanding and stamp out narrow nationalisms.

To Break Down Many Barriers

The organization, known more briefly as U.N.E.S.C.O., hopes to develop a world-wide program in fundamental education and to fight illiteracy. It also plans to study the possibilities of establishing an international radio network and of breaking down barriers in other fields associated with the exchange of information and ideas. Mr. Herman Vouden, one of the Canadian representatives to the recent meeting of U.N.E.S.C.O., pointed out in an interview at the conclusion of the gathering, that it must be remembered that the organization does not wish to interfere with the art or culture of any country, but only to teach "the age-old theme of tolerance, understanding and friendship."

A Hopeful Sign For The Future

Prime Minister Attlee once said that "war is bad in the minds of men." Few people need to be reminded of the powerful part played by distorted ideas in the building up of the Nazi regime in Germany. It is now a hopeful sign for the future peace of the world that the importance of education in breaking down prejudices and misunderstanding has been recognized, and that practical steps are being taken to use it as a means of preventing future wars. One very commendable and practical undertaking of the organization is the plan to launch a campaign to raise \$100,000,000 to rebuild schools and provide educational equipment in the war-devastated countries. It is probable that immediate results of the plans made at the recent meeting held by U.N.E.S.C.O. will be felt here and in other lands, and it is to be hoped that its undertakings will meet with the interest and support which they deserve.

TOO WEAK TO DO ANYTHING

PREDICTS CAR OUTPUT TO INCREASE

TORONTO.—Prospective buyers of new cars are going to get a 30 per cent. better break in 1947 than they received in strike-torn 1946, according to W. A. Wecker, president of General Motors of Canada Ltd., who predicted that the Canadian auto industry would produce between 250,000 and 300,000 cars and trucks this year. Last year production totalled 185,000 units.

Mr. Wecker spoke at the annual dinner held by his company for the press at the Royal York Hotel. The program was presided over by E. J. Umphrey, director of sales for G.M. "My own prediction is about 160,000 cars and trucks, which will relieve the pressure to some degree," the president said. "It will mean that the public won't have to wait so long to get their orders filled."

Mr. Wecker stressed that these production figures were conditional on there being no major work stoppages. He believed that by mid-summer of this year, the supply picture would be much improved. In normal times if there is less than three days supply of any parts on hand, the plant is considered to be out of them, Mr. Wecker said. Today, the factory is running on an hour-to-hour basis on the 8,000 individual items that go into manufacture of cars and trucks. The company had sent its own trucks into the United States to speed up delivery of critical parts.

"We are desperately doing everything possible to fill our production gaps," Mr. Wecker told his audience. He pointed out that though 1946 was a disappointing year in many respects, because of strikes and numerous shortages, more cars were turned out in that year than in the first prewar year of 1930. "After the first quarter of 1947, it is not too much to expect a gradual rise in production volume," the president said.

FUNNY AND OTHERWISE

It was the young usher's first big wedding and he had to evict an old lady from the reserved seats. Nervously he tapped her on the shoulder and then said with a rush: "Mardon me, Padam. You're occupying the wrong pie. May I see you to another sheet?"

Juggins: "How do you get on with the boss, old man?" Juggins: "He's about the meanest man I know." Juggins: "How's that?" Juggins: "He's had the legs sawn off the wheelbarrow so that I can't sit down and rest."

The banker's daughter threw her arms around the neck of the bridegroom-to-be. "Oh, dear," she exclaimed, "dad's going to give us a cheque for a present!"

"Excellent!" exclaimed the happy young man. "Then I'll have the wedding at noon instead of 2 o'clock."

The letters M.D. signify "Mentally Deficient."

Prices go up because of the increase of wages, because of the increase in cost of living, because of the increase of prices.

BOILS

Mecca Ointment

The train was a cross-country affair that stopped at all stations and frequently several times in between. Toward the end of a very long journey the conductor came around.

"Look here, sir," he said to one of the passengers as he examined his tickets, "that boy is too big to travel half-fare."

"Is he really?" replied the passenger quietly. "Well, he was small enough when we started."

Bill was busy at his desk when a friend crashed in. Friend (groaning): "I don't know what to do with this rheumatic pain."

Bill (politely): "I didn't know you suffered from rheumatism. Friend (glowing): "What else can you do with it?"

A professor of physiology was describing the organs of sense, etc., and finally asked for a summary of his lecture. The star of the class arose and said: "Well, Prof., as I see it, I see with my eye organ, I hear with my ear organ, I smell with my nose organ, I eat with my mouth organ, and I feel with my hand organ."

"I can't sleep," wailed a voice in his ear, as the doctor got out of bed to answer the telephone at three in the morning.

"Hold the wire," said the doctor curtly, "and I'll sing you a lullaby."

Palm oil is used in the production of steel plates. 2711

Soviet Weathermen Coming To Canada To Exchange Data

TORONTO.—Dr. C. G. Rossby, professor of meteorology at the University of Chicago, told the Royal Canadian Institute here that Russia is sending a group of experts to Canada and the United States to confer with meteorologists of the two countries, while a group from the U.S. is going to Russia.

He said that as far as meteorology was concerned, Russia co-operates "cordially and completely" in the exchange of weather information.

Canada has six weather stations in 500,000 square miles and should have 15 more, he said. Despite "certain districts of Russia" the fact remained that Russia sends more weather information to Canada than the Dominion's weathermen send to Russia. Since weather recognizes no borders, Dr. Rossby said he hopes that some day there will be a world weather organization, financed internationally.

Meteorologists throughout the world, regardless of politics and policies, are on a "first name" basis and are interested only in meteorology, he added.

HONEST ANYWAY

—Whenever we read about some man saying, in answer to a reporter's question, that he attributes his success to his wife, we think of the refreshing answer once made by a man who had the courage not to be modest: "No what do I attribute my success? Why, to my ability, of course!"

POULTRY PURCHASE

OTTAWA.—The British ministry of food has agreed to purchase up to 10,000,000 pounds of dressed Canadian poultry before March 31 and the special products board has increased its buying price to one-half cent under the wholesale ceiling; the agriculture department announced recently.

To Feel Right — Eat Right!

PREDICTS SUCCESS IN CANCER RESEARCH

NEW YORK.—The problem of cancer will be whipped within five years, Elmer Bobat said in accepting the chairmanship of the American Cancer Society's drive to raise \$12,000,000 for a concentrated attack on the disease.

Bobat is not a medical man, but he is a recognized authority on cancer. He said he based his opinion that cancer would be solved in five years on the knowledge he had gained in his years in the pharmaceutical business.

Bobat also disclosed that the society already has made research grants, totalling about \$3,600,000, to 101 universities and medical schools, and that eventually every phase of cancer would come under the program.

At least 1,000 topflight scientists are now working in the research laboratories and more will join the battle as the accelerated program moves forward, he said.

"I believe that within five years we will know all about cancer, he said."

Bobat indicated that numerous new leads and discoveries had been made in the research laboratories and that some of these might be made public soon.

Confusion Exists In Cleveland's Chinatown

CLEVELAND.—Confusion, not CONFLICT, has been reigning in Chinatown here. This city's Chinese population couldn't agree on when to celebrate Chinese New Year.

Some figured it would fall in late February. One man held out for Jan. 22, and the rest have been giving their abacuses a work-out trying to decide for themselves.

The dispute is because an airmail shipment of Chinese calendars was overdue.

According to the Chinese calendar, 1946 ended Dec. 31, which is Dec. 2 by the Gregorian calendar.

"Chinese Decembers have only 30 days," said Wing Chin, a Chinatown resident. "Some years have 13 months. Some have 12 months. I think New Year's is the 28th or 29th of February. Maybe by then I'll have it figured out."

But that's just Wing's opinion. His neighbor, Ed. Dea, believes every third Chinese year has 13 months. "No extra month," he said. No wonder they're confused.

And why so much fuss over Chinese New Year? William Young explained: "It is important because everybody's birthday in China falls on New Year's day. Chinese babies are born later when they're born. Then they become two years old on the first New Year's, even if they were born a few minutes before the old year goes out. Also, debts are paid on New Year's."

"Next February has almost 60 days," Young added "darkly." "Makes figuring very hard."

Howard Chin, of the Hip Sing Lee Tong, pointed to his newly-arrived Chinese calendar, and said, "New Year's comes January 22; also says good day for planting rice crops."

New Zealand's first railway was opened in 1863.

Healthy Attractive

New Fast Rising Royal's speedy action lets you do all your baking in a few hours during the day. Eliminates old-time "overnight" baking bother and risk.

New Fast Rising Royal stays full-strength on your pantry shelf for weeks—ready to save time... save you. Get New Fast Rising Royal Fast Rising Dry Yeast at your grocer's.

Add New Fast Rising Royal to water. Proof! In 10 minutes it's ready for action.

4 packets to a carton. Large loaves from each packet.

Dominion To Broaden Rules Of Immigration

OTTAWA.—A broadening of the Canadian immigration regulations to permit the entry into the Dominion of four new classes of immigrants was announced to the commons by Resources Minister Glen, the minister responsible for immigration.

He rose during the throne speech debate to disclose the passage Jan. 30 of an order-in-council allowing entry of these new classes:

1. The widowed daughter or sister (with or without unmarried children under 18 years of age) of a legal resident of Canada who is in a position to receive and care for such relatives.

2. An agriculturist entering Canada to farm when destined to a father, father-in-law, son, son-in-law, brother, brother-in-law, uncle or nephew engaged in agriculture as his principal occupation who is in a position to receive such immigrant and establish him on a farm.

3. A farm laborer entering Canada to engage in assured farm employment.

4. A person experienced in mining, lumbering or logging entering Canada to engage in assured employment in any one of such industries.

Mr. Glen also announced amendment to the regulations to allow the admission of orphaned nephews and nieces under 18 years of age who are related to Canadians. Previously, only orphaned nephews and nieces under 16 were admissible.

He estimated that the changes would result in a "considerably larger" number of immigrants coming to Canada.

Of the question of a general post-war immigration policy, Mr. Glen indicated the department and the cabinet still had this under study.

He made his announcement of the broadened regulations while replying to charges made by Alistair Stewart (C.C.F.-Winnipeg North) that the regulations contained discriminations against Jews and Ukrainians and Poles.

When Mr. Glen made his announcement Mr. Stewart asked if the amendments applied also to Jews, Ukrainians and Poles.

The minister replied that it would apply to such persons if they fulfilled the requirements.

He said that because of the still-unsettled conditions in various parts of Europe, and existing frontier controls, it was not yet possible for immigrants from some countries to proceed to embarkation centres for immigration and medical examination as in pre-war years.

RESTRICTIONS CONTROLLING CIVIL SERVANTS REMOVED

OTTAWA.—Lifting of wartime restrictions on reclassification of civil service positions was announced in a letter from Finance Minister Abbott to deputy ministers.

The letter announced removal of freezing controls on civil servants' salaries. It is understood the move opens the way for reclassification of a number of civil service jobs, along the line of the Gordon royal commission on administrative classifications in the public service.

Leading livestock state in the United States is Texas.

SWEDEN'S ROYAL FAMILY BROKEN—Prince Gustaf Adolf died with 21 others in the crash of the Royal Dutch Airliner at Copenhagen. Four generations in the male line of the Bernadotte family are seen here in recent portrait. King Gustaf holds great-grandson Prince Carl Gustaf; centre, who is second in line to the throne, Prince Gustaf Adolf; left, Crown Prince Gustaf Adolf.

More Research Needed For Dairy Industry

More research directed to greater efficiency and less drudgery on the dairy farm is needed in western Canada, Prof. V. E. Graham of the dairying department, University of Saskatchewan said at the 38th annual convention of the Saskatchewan Dairy association in Hotel Saskatchewan.

Without research, he said, the dairying industry will languish. Any research undertaken must be directed towards greater efficiency in manufacturing and a greater utilization of the use of milk, all the milk including skim milk, not just the cream.

Because of the volume of production per plant is so important to efficiency in manufacturing it follows that some improvement in this respect will result from more efficient production on the farm and a greater concentration of production in those districts which are adapted to dairying, Prof. Graham said.

Yet efficient manufacturing only starts with efficient production. Efficiency also requires a high degree of technical skill and this is gradually being applied largely through the efforts of agricultural colleges, he said.

More cow testing associations were required, Prof. Graham said. Farmers should be more careful in the selection of their animals, he said, explaining that when the position of a firm or individual is required, a banker is consulted or a credit rating used. "You get this information in black and white and depend on it. When you want to buy a cow you should also be able to secure a certified record of her production. If you are engaged in dairying to make money, the production of the animal

CREAMERY BUTTER STOCKS INCREASED

OTTAWA.—Canada's domestic butter outlook is about 8,500,000 pounds brighter than the dark days of a year ago when the weekly individual ration fell to four ounces—its all time low.

The bureau of statistics reported that stocks of creamery butter in nine principal cities totalled 17,433,720 pounds on Feb. 1, compared with 13,652,164 Feb. 1, 1946. Stocks on Jan. 1 totalled 25,501,685. Actually, however, the main reason for Canadian elation concerning butter was still the 8,000,000 to 10,000,000 pounds Canada has been promised from New Zealand. Shipments of New Zealand butter are expected to reach Canada shortly.

STYLES ARE CHANGING

NEW YORK.—Brides of 1947 may wear their palladium or gold wedding rings in their ears, as well as on the third finger, left hand, reports O. M. Resen, jewelry designer. "For sentimental reasons," brides are buying three wedding rings, and converting two of them into earrings that match their wedding bands Resen said.

You buy is of prime importance," Prof. Graham said.

He was of the opinion that a herd of about 15 cows was necessary to justify the installation of modern equipment.

Dairying in the west had had a remarkable expansion, he said, showing how Manitoba in 1906 to 1915 produced 3,100,000 pounds and in 1936-45 28,200,000, Saskatchewan in the same period rose from 1,100,000 to 34,000,000 pounds and Alberta 2,900,000 to 32,600,000.

According to the 1941 census the west had 21 per cent of Canada's population yet it produced 28.9 per cent of the country's milk. Saskatchewan is supposed to be a cereal province yet in 1941 with 7.8 per cent of population it produced 10.1 per cent of the country's milk.

Canada's Stand Explains Peace Treaty Request

OTTAWA.—Canada does not want to see a few countries "dominating" the peace, Prime Minister Mackenzie King told the commons in an explanation of the dominion's request for a voice in the German peace treaty.

Declaring the whole country was back of the government's move for greater participation in the treaty-making, the prime minister said Canada wanted nothing for itself and was trying only to render a service to the cause of world peace.

While this country was making its all-out war effort, Mr. King said, the government had had in mind a hand in the peacemaking. Now, it felt that effort had justified its demand for a seat at the treaty table.

"We were fighting to prevent two countries from dominating the world," he declared. "Now we do not want to see any one, two, three, four, countries dominate the world peace."

FAR EAST EVENTS HAVE POWERFUL INFLUENCE HERE

—SAYS AMBASSADOR

TORONTO.—Mr. Justice T. C. Davis, newly-appointed Chinese ambassador to China, said events are "in the making" in the Far East which will have a powerful influence on the lives of the Canadian people.

Addressing a Canadian club luncheon, the ambassador said: "The ferment of India, the difficulties in the Netherlands East Indies, the movement for greater freedom in Burma and in Malaya, the developments in Japan, the changes being made in China, have created conditions like a seething cauldron and no one is quite certain as to what may emerge from the pot."

The western world could influence these developments for good or evil and should have the insight to appreciate the impulse of eastern peoples to progress."

In Australia, where Mr. Justice Davis acted as Canadian ambassador from 1942 to 1946, he found people without "a very warm feeling towards Canada and Canadians."

"They felt that in their hour of greatest need Canada, I, Coldwell, great sister dominion, should have come to their aid... I had to explain that for two years before Pearl Harbor, Canada had been committed to all-out aid to Britain in the European sector of the war."

As time went on... Australia realized the position and concurred in the course we pursued and were in fact very proud of Canada's contribution to the war."

HIGH TEMPERATURE ABOVE FRIGID ZONE

WASHINGTON.—Layers of blazing heat have been found in the frigid upper atmosphere, scientists announced. Up to now it had been assumed that above seven miles, the temperature remained constant at 67 degrees below zero Fahrenheit. But thermometers in rockets have disclosed a torrid zone with heat of 170 degrees between the 30- and 40-mile mark.

From 40 to 50 miles, the air grows colder again, the temperature probably dropping as low as 150 below zero. The rocket probes there registered 50 below. Then from 50 to 75 miles occurs another torrid zone where the rocket-thermometers recorded 212 degrees and the scientists calculated that the maximum probably was 638 degrees.

The new data was obtained by thermometers in V-2 rockets launched at White Sands, N.M.

Would Save Refugees From Being Deported

LONDON.—Gen. Mark W. Clark, American delegate to the conference of Big Four foreign ministerial deputies, opened a determined campaign to save thousands of refugees from Russian and Soviet-satellite countries from prosecution as "war criminals" for their political views.

Clark introduced at a meeting of the deputies a proposal that the Austrian independence treaty contain a clause to prevent the refugees in question, now in camps in Austria, from being taken by force to their countries of origin. Once deported, they would face trial and prison terms at best.

It was understood here that Clark, if necessary, was even prepared to act in his capacity as American commander in chief in Austria, to remove the refugees to camps in the American zone in Germany.

IN POLISH HANDS

WARSAW.—A government spokesman said the administration of the entire Baltic sea port of Stettin had been handed over to the Poles by the Russians. Sections of the port were used by the Russians for transshipment of goods and personnel to and from the Soviet occupation zone of Germany.

Snow Storms Interfering With Grain Deliveries

WINNIPEG.—Snow-blocked highways in many parts of western Canada had interfered seriously with deliveries of grain from prairie farms, grain men said here, but the paramount problem in meeting the Dominion's export commitments remained one of movement to Atlantic and Pacific ports.

While the visible supply of Canadian wheat as of Jan. 31 was more than 134,700,000 bushels, only about 5,000,000 bushels were in an exportable position, the majority of this at Canadian or United States Atlantic ports. Nearly 77,000,000 bushels were in country elevators.

Exports so far this crop year total 74,800,000 bushels compared with 168,400,000 bushels the same period last year and grain men say that "quite an impetus is needed" if commitments are to be met. "What the railways can do from here on to provide grain cars will tell the tale."

Although the west on Feb. 5 posted the lowest one day's inspection on record—56 cars of grain compared to an average of about 400—because of snowbound highways and railway feeder lines, grain men said recent storms affected the situation only where snow had blocked branch lines and prevented movement from country elevators on them to the clear transcontinental lines.

If storms block both feeder and transcontinental lines for a considerable period of time or if farmers are unable to deliver wheat to local elevators then a serious situation could develop, but both possibilities are discounted.

FRANCE TO TRY HIM FOR 'HARMFUL' ACTS—On charges of committing acts "harmful to the external security of the state," ex-Premier Camille Chautemps will be tried in absentia by the French high court of justice, according to a Paris report. He is shown here in Los Angeles recently.

Duke Of Windsor Plans Autobiography

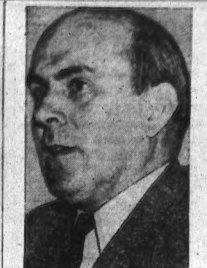

PALM BEACH, Fla.—The Duke of Windsor said that he is planning to write his autobiography.

Interviewed at the home of Robert R. Young, railroad executive, the duke disclosed that he had many records and notes—and a typewriter.

The duke said that some day he would begin to write the story of his experiences and world observations.

BURMESE AGREEMENT ANNOUNCED—Independence agreement for Burma was signed in London, with two Burmese leaders dissenting, following midnight negotiation of delegates with Prime Minister Attlee, left, seen with Sir Stafford Cripps and U. Aung San from Burma.

EX-WAR SECRETARY HEADS WORLD BANK—New head of the 10-billion-dollar World Bank is John J. McCloy of New York, former U.S. assistant secretary of war. The new president succeeds Eugene Meyer, who resigned.

Extension Of Emergency Powers Sought

OTTAWA.—Extension of about 50 of the government's emergency powers—including controls on prices, supplies and rentals—will be sought for a limited time from parliament, Prime Minister King said in the Commons.

At the same time, Mr. King announced the government will propose an amendment to old age pensions legislation to provide "something in addition" to the present act—\$25 at 70. But he did not indicate whether this referred to reported lowering of the age limit and increased payments, declaring he could not say now what would be included "in addition."

Further government legislation, the prime minister said, will include a bill amending the industrial disputes investigation act—that will be the new national labor code—and one dealing with veterans' preference in the civil service.

Mr. King gave a summary of the government's legislative plans with respect to controls and emergency legislation after M. J. Coldwell, C.C.F. leader, asked for an early disclosure to the house of what measures were proposed upon the March 31 expiry of the National Emergency Transitional Powers act.

On the labor relations legislation, A. L. Smith (P.C.-Calgary West) wanted to know if members could get copies of the measure to set up the new labor code.

"The bill already has been distributed to manufacturers' organizations and labor organizations," he said. "Would it not be possible for members of parliament to be shown the same courtesy?"

Labor Minister Mitchell was not in the house, and the question was not answered.

Stanley Knowles (C.C.F.-Winnipeg North Centre) asked whether there was to be a temporary measure continuing the present arrangement on old age pensions, followed by a "definite amendment" to the act later.

Mr. King said an amendment increasing the amount of pension under the emergency powers act would expire March 31. The government would seek to have that period extended in the general bill, following this with a specific bill on pensions.

Asked by Mr. Knowles when the bill might be introduced, he said that would depend on progress made during the session.

POLIO DRIVE 'FOSTER GIRL' IN NEW YORK—"Foster Girl" for "March of Dimes" infantile paralysis drive, Nancy Drury "makes believe" she's driving a fire engine as she visits New York firehouse, "Cappy" mascot.

BOY SCOUT - GIRL GUIDE

WEEK FEBRUARY 16-23

6,000 Boy Scouts and 4,500 Girl Guides in Alberta is not enough, says Hon. N. E. Tanner, provincial Commissioner of Boy Scouts and Minister of Lands and Mines in the provincial government.

Interviewed in Edmonton, together with Mrs. S. H. Gardier, provincial Commissioner for Girl Guides, Mr. Tanner stated that there were now 6,000 members of the Boy Scouts and 4,500 members of the Girl Guides in Alberta.

Mrs. Gardier expressed satisfaction at the character training being given to the 10,500 boys and girls in the province. "This," she said, "will make them worthwhile citizens of this province, as well as giving them an outlet for their present youthful enthusiasm. The slogan taken for this year's Scout-Guide week is 'This is the Future,' which I consider most apt for there can be no real future for the world without proper training of the youth today."

Mr. Tanner appealed to the citi-

zens of the Province to support these two movements. "While we are making great progress," he stated, "we are not reaching enough of our youth. Every boy and girl should have the opportunity and be encouraged to join the Scouts and Guides. We need," he continued, "more men and women to take an active interest in the young people. Nothing will give a man or woman more satisfaction, than to work with boys or girls. Their enthusiasm for a cause is unbounded and is stimulating in itself. In addition they will have the satisfaction of seeing their boys and girls grow up to become worthwhile members of the community."

SARA HAGGARTY BECOMES

BRIDE OF GEORGE FINLAY

A lovely winter ceremony solemnized the marriage of Sara Wilson, daughter of Mr. and Mrs. Peter Haggarty 1891 Columbia Ave., and George William Finlay, son of Mr. Joe Finlay of Rossland. The Knox United church was the setting of the wedding on Wednesday, Jan. 29, at 3:00 p.m., with Rev. J. H. A. Warr officiating. Mrs. Ralph Cook, as soloist, was accompanied at the organ by Mrs. R. W. Spinks.

Given in marriage by her father the pretty bride made a charming picture before a setting of daffodils and white chrysanthemums. She was attired in white embroidered sheer, the gown featuring long full sleeves, a gathered waistline, and a full skirt. Her full length silk embroidered veil was held in place by a coronet of orange blossoms. Pearls were her only jewelry. She wore white silk gloves, and carried a powder puff bouquet of Talianian daffodils.

Sister of the bride, Mrs. Raymond Matheson, as matron of honor, was gowned in pale green, the bodice being lace over the full net skirt. She wore a Juliet cap with green veil matching lace gloves, and carried a bouquet of daffodils.

As bridesmaid, Miss Jean Haggarty, also a sister of the bride, chose a pink frock, the bodice was of lace while the skirt was of net. She wore a Juliet cap with pink veiling, white lace gloves, and carried a bouquet of white carnations.

Also as bridesmaid, Miss Irene Sargent was attired in a frock which featured a blue lace bodice and a full net skirt. She wore a Juliet cap with blue veiling. She wore white silk gloves and her bouquet was of pink carnations.

Miss Carol Lynn Matheson, niece of the bride, flower girl, was frocked in a full length yellow sheer over taffeta, fashioned with puffed sleeves and a gathered yoke. She carried a nosegay of pink and white carnations.

Mr. George Finlay supported the groom, while acting as ushers were Ray Matheson and Fred Finlay.

A reception for immediate friends and relatives was held following the ceremony in the Palm room of the Crown Point hotel, when the mothers of the bride and groom assisted the young couple in receiving the guests. Mrs. Haggarty chose for the occasion a powder blue sheer, sequin trimmed afternoon dress with which she wore black accessories and a corsage of pink roses. The groom's mother was attired in a grey wool dressmaker suit, brown accessories, and pink roses on corsage.

The bride's table covered with a hand crocheted white cloth was centred with a three-tiered wedding cake, embedded in yellow tulle and surrounded with yellow tapers and baskets of daffodils and white mums. Following the first cut by the bridal couple, Mrs. K. G. McTeer, aunt of the bride, cut the wedding cake. Servitors were Mrs. C. Haggarty, Miss Ellen Finlay and Miss Lorretta Fout.

Following the celebration, the bride donned an American Beauty jorpe dress with matching corsage. She wore a brown top coat and brown accessories.

Mr. and Mrs. Finlay will take up residence shortly, in Rossland—Times.

MUTUAL LIFE PRESIDENT

Louis L. Lang

President of the Mutual Life of Canada, who addressed the 77th Annual Meeting of the policyholders, held at Waterloo, on Thursday, February 6th.

All-Time high in 1946 New Business Revealed By Mutual Life Heads

A record year of \$105,000,000 in new business written in 1946, and excellent opportunities for 1947 were reported by Louis L. Lang, president.

The present second year of reconstruction would present many opportunities for increased security and happiness for Canadians, despite some serious errors made in 1946, said Mr. Lang. He pointed out that Canada had permitted repeated interruptions and reductions in production, at a time when the whole civilized world was crying out for her manufactured goods. At the same time, an inflation of prices had given an artificial semblance of rising prosperity.

Despite continued world unrest, the great majority of Canadians continued to believe that the political and economic systems represented by the British Empire and the United States of America were the best in the history of mankind, said Mr. Lang. Inseparable from these systems was the principle of the freedom of individual enterprise, the continuance of which Mr. Lang considered essential to Canadian prosperity.

There was an earthquake in a South American town which badly scared the inhabitants.

An English family who lived there sent their little son to stay with an uncle in another district for safety's sake.

Two days later, the parents received the following telegram: "Am returning your boy. Send earthquake!"

TRAVEL BUREAU SPONSORS

"POPULAR DISH" CONTEST

Alberta women are being urged by the Alberta Government Travel Bureau to concoct a dish which will be distinctively Albertan and which will send tourists who visit this province back to their own home towns raving about the good food they got while on holidays in this fair province.

"Boston has its baked beans, Mexico its chili con carne and even Winnipeg has Winnipeg goldeyes so we here in Alberta where world-champion food products are produced,

should have a dish for which we can become as famous internationally," said Dan E. C. Campbell, director of the Travel Bureau.

"Tourists like our beef steaks and I can't think of a better meat dish to give them, but they can get good steaks in other places so we want ours to be much better than others and served with a distinctive sauce or cooked in some special way which will make it famous for deliciousness all over the world," Mr. Campbell added.

Conditions of the contest and entry blanks for it may be obtained from Treasury branches or by writing

direct to the Alberta Government Travel Bureau Legislative Building Edmonton.

Outstanding items in the 77th ANNUAL REPORT

"A year's operations quite satisfactory in all respects."

NEW ASSURANCES PAID FOR IN 1946 . . . \$104,946,910

The new sales in 1946, almost entirely Canadian, established a new high far exceeding any previous year. Over 34,000 new policies were added to the books.

TOTAL ASSURANCES IN FORCE ON DECEMBER 31, 1946 . . . \$855,165,736

The Company has closed each of its seventy-seven years of operation with more insurance in force than at the beginning of the year.

TOTAL ASSETS . . . \$286,792,678

The safety of the policyholders' funds has always been the corner-stone of the Company's investment policy.

TOTAL PAYMENTS TO POLICYHOLDERS AND BENEFICIARIES . . . \$ 16,897,185

65.6% of this amount was paid to living policyholders. Associated diseases of the heart, blood vessels and kidneys accounted for more than 50% of the death claims, cancer 14%, accidents 4%, tuberculosis 2% and pneumonia 2%.

SURPLUS EARNED IN 1946 . . . \$ 5,500,426

In a mutual company, the benefits of successful operation accrue to policyholders, and the earnings in 1946 permit the continuation of the Company's long and outstanding record of high returns to policyholders, reducing the actual cost of their life insurance.

The 77th annual meeting of policyholders was held at the Head Office on February 6, 1947. A copy of the complete report of the proceedings will be sent on request.

Comments on EVERYBODY'S BUSINESS

"Do you know," Harry asked me, "what 4,000,000 workers look like?" "No, but I read somewhere that four million dinner pails would reach from Winnipeg to Calgary."

"That helps to visualize the number," said Harry, "but the interesting thing about the four million workers I am talking about, is that they all carry life insurance whether they carry dinner pails or wherever they eat. They are people like our neighbours who live in the houses we can see from here. There are two farm families, then a gangster, a salesman and his daughter who is a stenographer, three factory people, two teachers, an accountant, a banker, a merchant and a contractor."

Life Insurance in Canada is big business because it is the total of the policies of millions of providers who make progress in safety.

Life Insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their loved ones. Life Insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements.

SAVE SOME FOR Yourself!

It's a melancholy thought... but isn't it true that you are always the last to share in your monthly earnings?

There's the butcher, the baker, the coal-man, the landlord. There's that new mattress for Mary, or Junior's dental bill. All it takes is an unexpected "extra" or two and — bang! — where's that money you so carefully had earmarked for savings?

Yet here's an interesting thing. All through the war you proved, with your Victory Bond purchases, that you could "save some for yourself". In fact, you saved a surprisingly large amount.

You proved, too, that a back-log of savings "does things" to you. It gives a life to your self-respect... to your sense of getting somewhere. It makes you feel less vulnerable — makes you more willing and able to grasp opportunity

when it comes along. It gives you peace of mind. Who can say how important these things are, both to your progress and your personal happiness? Certainly they are well worth working for. And that means *ouing yourself* a certain set sum every month, and then making sure you collect it. So keep up that wartime saving habit. It's one good thing the war taught all of us.

PERHAPS YOU are one of the hundreds of thousands who already keep a Royal Bank savings account. If not, we'd like you to consider this your personal invitation to open one at the Royal Bank branch most convenient to you. The size of your first deposit isn't the important thing, to you or to us. The important thing is to open it, and then make sure, every pay day, that you save something for yourself.

THE ROYAL BANK OF CANADA
BLAIRMORE BRANCH - M. G. SMITH, Manager
BELLEVUE BRANCH - L. B. LONG, Manager

IMPORTANT GOVERNMENT NOTICE Respecting Price Control

The Wartime Prices and Trade Regulations (Order in Council P.C. 8528 of November 1, 1941) established basic period maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the National Emergency Transitional Powers Act, 1945.

From time to time these basic maximum prices have been varied or the fixed maximum has been suspended in the case of particular goods and services by Orders issued by the Wartime Prices and Trade Board under the authority of the above Regulations. A few days ago a substantial number of suspensions from price control was announced.

I believe it is desirable therefore that a summary should now be published of those goods and services on which a legal maximum price remains in force under the provisions of the Wartime Prices and Trade Regulations so that all citizens may be given an opportunity to inform themselves of the law.

The complete price control regulations are contained in Wartime Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

Douglas Ross
Minister of Finance.

Summary of

GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICES

Under Wartime Prices and Trade Board Order No. 684

FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, biscuits and bakery products.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other elementary paste products.
- Rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soy beans, dried beans except lima beans and red kidney beans.
- Baking powder.
- Sugar, sugar cane syrup, corn syrup, grape sugar, glucose.
- Edible molasses.
- Honey.
- Maple products—1946 production.
- Candy, confectionery and caramel.
- Tea, coffee, coffee concentrates.
- Cacao beans, cocoa butter, cocoa, and chocolate and beverage preparations containing cocoa or powdered milk.
- Soft drinks and soft drink concentrates, except mineral, sparkling or spring waters in their natural form.
- Malt, malt extract, malt syrup.
- Vinegar.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Butter.
- Cheese.
- Cheddar cheese, processed cheese and cream cheese.
- Concentrated milk products of all kinds.
- Ice cream.
- Prepared salad dressings; salad and cooking oils.
- Salt.
- Fresh apples—1946 crop.
- Raisins, currants, prunes, dried dates, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato purée, tomato cat-up, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti and canned soup.
- Canned corn, canned peas, canned beans excluding the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears, canned cherries, canned plums.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Jams, jellies, marmalades.
- Meat and meat products, not including game, pet food, and certain varieties of cooked and canned meats and sandwich spreads.

- Sausage casings, animal and artificial.
- Live and dressed poultry; poultry products except certain varieties of canned poultry and canned poultry sandwich spreads.
- Eggs in the shell; eggs frozen or powdered.
- Canned salmon, canned sea trout, canned pilchard.
- Edible animal and vegetable fats including lard and shortening.

CLOTHING

- Men's, youths' and boys' suits, pants, coats and other clothing except fur coats.
- Fabric caps.
- Men's, youths' and boys' furnishings, as follows: shirts, collars, blouses, underwear, pajamas, night shirts and dressing gowns.
- Women's, misses', girls', children's and infants' garments of all kinds (except fur coats) and of any material (except pure silk).
- Infants' and children's garments.
- Women's, misses', girls' and children's accessories as follows: dresses, blouses, hosiery, neckwear, collars, cuffs and aprons.
- Children's and infants' headwear of all kinds, except misses' millinery or hats made from fur felt.
- Knitted wear of all kinds for either sex, including undergarments, outer garments, hosiery, stockings, socks and headwear, but not including pure silk garments, silk stockings or women's and misses' millinery.
- Handkerchiefs.
- Work clothing, including aprons, for either sex.
- Uniforms for either sex.
- Sportswear for either sex, but not including bathing suits and bathing caps.
- Rubber clothing, rubberized clothing, waterproof, showerproof and oiled clothing, except specialized industrial clothing.
- Gloves, gauntlets, mitts and mittens of all kinds for either sex, except those designed as specialized sports equipment or for specialized industrial uses.
- Diapers and diaper supports.
- Footwear of all kinds and of any material.

HOUSEHOLD AND OTHER TEXTILES

- Auto and travelling rugs, awnings, bath mats, bedspreads, blankets of all kinds, canvas floor, card table covers, comforters, curtains, cushion forms, dish cloths, dish towels, drapes, edgeware, face cloths, handkerchiefs, linens, sets, mattresses of all kinds, napkins, pillows, pillow cases, pillow forms, quilts, sails, sheets

- (Including rubber and plastic coated sheeting), shower curtains, slat cloths, sleeping bags, swings, table cloths, tents, throw-overs, towels wash cloths, window blinds, window shades.
- Slip covers for furniture; covers for baby carriages, bassinets, cribs, cushions, mattresses, ironing boards and toilet seats.
- Pads for baby baskets, baby carriages, card tables, chairs, ironing boards, mattresses and playpens.
- Bags for household use, garment bags, haversacks, dunnage bags.
- Tarpaulins and other protective coverings of canvas.
- Scrap fabrics, including used scrap fabrics except wiping rags.
- Floor rugs and mats chiefly of cotton.
- Table and shelf cloth.

DOMESTIC FUELS

- Coal, coke and briquettes.
- Wood, fuel, sawdust and charcoal.

HOUSEHOLD EQUIPMENT AND SUPPLIES

- Cooking stoves and ranges, but not including refrigerators.
- Electrical and gas refrigerators.
- Washing machines.
- Furnaces, fire-place heaters and other heating equipment except portable electric heaters.
- Jacket heaters and other water heating equipment.
- Plumbing and sanitary equipment as follows:
 - All pipe and fittings of a type and size suitable for installation in domestic heating or water systems.
 - All equipment known commercially as "plumber's brass".
 - Other plumbing and sanitary equipment as follows: bathtubs, closet bowls, commodes, closet seats and hinges, chemical closets, closet tanks, household water softeners, household water storage tanks, lavatories, laundry tubs, septic tanks, sinks, shower baths, soil pipe and fittings, wash basins.
- Domestic sewing machines.
- Soap and soap compounds.

MOTOR VEHICLES AND ACCESSORIES, BICYCLES

- Motor vehicles, including parts and accessories, as follows: passenger motor vehicles designed to carry less than ten persons; motorcycles; trucks and trailers used with trucks.
- Automotive truck bodies.
- Pneumatic tires and tubes.
- Storage batteries, except for specialized industrial use.

- Bicycles, parts and accessories.

CONSTRUCTION PRODUCTS

- Lumber of all kinds.
- Millwork such as doors, sashes, windows, stairs and balustrades.
- Plywood and veneers.
- Pre-cut lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Insulation products; but not including pipe and boiler coverings.
- Builders' lime and plaster.
- Cast iron soil pipe.
- Nails, staples, rivets, bolts and nuts.
- Builders' hardware and locks.
- Building wires and wiring devices for residential buildings.

AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plow, tillage implements and cultivators, haying machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Incubators, brooders, poultry feeding and watering equipment.
- Stationary gas engines.
- Beekkeepers supplies.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Horseshoes and horseshoe caulk and nails.
- Blind twine.
- Feeds and feed products of all kinds except horse meat, pet food, straw, clam shell and poultry grit.
- Agricultural limestone, hydrated lime and chemical fertilizers of all kinds.
- Cropper poison.
- Seed beans and seed peas.
- Grains as follows: wheat; barley; oats; flaxseed; buckwheat; rapeseed; sunflower seed; grain screenings.

RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys, including pig iron, cast iron, scrap, ingots, bars, plate, rods, and wire.
- Primary, secondary and fabricated mill forms of the following non-ferrous metals and their alloys: aluminum, antimony, copper, lead, nickel, tin and zinc.

- Tractor distillates and gasoline.
- Crude rubber, synthetic rubber and latexes, reclaimed rubber.
- Basic industrial or agricultural chemicals.
- Dyestuffs, pigments and colorants.
- Plastic sheeting and other plastic shapes for further processing.
- Crushed or burnt limestone.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including cod liver oil when bottled for sale at retail.
- Natural occurring animal and vegetable waxes, but not including polishes.
- Glue stock, glues and adhesives.
- Starches.
- All kinds of limited or woven fabrics, except pure silk fabrics.
- Bobbing, dregs and curtain nets and netting.
- Yarns and threads, except pure silk, for the knitting and weaving of fabrics.
- Fibres (natural and synthetic) except pure silk fibres used in the manufacture of yarns and threads, and waste products from processing.
- Sewing, embroidery and crocheting yarns, threads and floss, except pure silk.
- Rubberized, plastic and other coated fabrics.
- Elastic yarns, fabrics, and webbing.
- Cotton, wool or hair felts.
- Down and feathers but not including decorative feathers.
- Hides and skins from animals, reptiles or fish, of a type ordinarily processed for use as a leather.
- Leathers and synthetic leathers of all kinds.
- Sheepskin shearlings, tanned, but not further processed than combed or sheared and coloured on the flesh side.

PULP, PAPER AND PAPER PRODUCTS

- Pulpwood.
- Waste paper.
- Wood pulp, except:
 - dissolving grades,
 - "alpha" grades of bleached sulphate,
 - "Duralcel".
 - groundwood and unbleached sulphate grades sold for the manufacture of newspaper or hanging paper.
- Newspaper, paper except when sold by manufacturers thereof.
- Certain paper products of book, writing, light weight and specialty paper mills, such as bond and stationery paper, duplicating paper, book and writing paper, Braille, uncoated blotting paper, cover paper and most papers for converting purposes.

- Papers used for converting or printing purposes made wholly or partly of bleached or unbleached Kraft pulp and Kraft waste.
- Paper board used in the manufacture of solid fibre or corrugated shipping cases.
- Boxboard grades of paperboard, except for wrapping newspaper paper or making newspaper cores.

CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made in whole or in part from wood, metal, a textile fabric, or solid or corrugated fibre board, and partitions and interior parts used in conjunction therewith.
- Multivall sacks.
- Corrugated or solid fibre board sheets or rolls used for wrapping or packaging.
- Cotton canvas.

SERVICES

- Transportation of goods and services associated therewith.
- Warehousing; dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and ancillary services such as processing charges in cold storage plants.
- Household laundering services.
- Supplying of meals or refreshments for consumption on the seller's premises, the supplying of beverages (except alcoholic beverages) by purveyors of meals or refreshments; the supplying of meals with sleeping accommodation for a combined charge, but not including the supplying of meals, refreshments or sleeping accommodation by an employer to his employees, directly or through a servant or agent.
- The service of printing, the packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom of commission basis.

USED GOODS

- Scrap goods, except scrap rubber and wiping rags.
- Household mechanical refrigerators, stoves, ranges and other cooking or heating appliances, electric washing machines, domestic sewing machines.
- Bicycles.
- Motor vehicles as follows: passenger motor vehicles designed to carry less than ten persons; trucks of all kinds; trailers used with trucks.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices. Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

The foregoing is only a convenient summary of Board Order No. 684. It does not give the full legal text. For full details of the law reference should be made to the Order.

D. GORDON, Chairman.

TASTING LIPTON'S TEA

WORLD HAPPENINGS BRIEFLY TOLD

Auctioned for the Dover Battle of Britain hospital, a 1920 touring car brought £200 (\$800).

The Royal Indian Navy is to get three ships of the Leander class sometime in 1947. They are the Achilles, Ajax and Leander.

Finland thus far has delivered one third of reparations valued at \$100,000,000 to the Soviet union, it was announced officially.

The Soviet News Agency Tass has reported the discovery of rich new anthracite deposits in the Don and northern Donets valleys.

Dublin harbor is having its first boom since 1938 and customs and shipping company staffs are working long overtime to clear shipments.

One thousand Dutch families are allowed to immigrate to Brazil for farm settlements, according to an agreement between the governments of Brazil and the Netherlands.

LONDON.—Princess Elizabeth has been elected an honorary member of the Institution of Civil Engineers, oldest civil engineering institution in the world—becoming its first honorary lady member.

J. R. G. Stirling, president of the B.C. Fruit Growers' Association, reported that the "largest fruit crop in the history of the tree fruits area" was sold last year. Mr. Stirling said the crop sold for close to \$25,000,000.

A really good sermon always seems to apply to someone you know.

ITCH CHECKED in a Jiffy or Money Back

For quick relief from itching caused by eczema, athlete's foot, scabies, dandruff, cradle cap, and other skin conditions, use the only cream, medicated, liquid and ointment, that cures itching. It's called **B. D. D. PRESCRIPTION**. Creams, ointments, and quickly calm intense itching. Don't suffer. Ask your druggist today for **B. D. D. PRESCRIPTION**.

Man Who Refused To Lower Union Jack Is Honored

OTTAWA.—The man who refused to lower the Union Jack at Singapore in September, 1945, in its prosaic official language of understatement, the citation said this:

"He was most forceful in his dealing with the Japanese, and secured immediately the main vital needs of prisoners of war and interned. He refused to lower it (the Union Jack) despite very strong representations by the Japanese High Command."

"Innumerable expressions of gratitude have been received from prisoners and interned themselves for Lt. Col. Stewart's work."

Col. Stewart was credited with doing "invaluable work" in looking after the interests of prisoners-of-war interned by the Japanese. He was in complete control of the city from Sept. 1 to Sept. 5, when British sea forces landed.

Born in China and a police officer in Vancouver before the war, he was enlisted as a private with the Irish Fusiliers in 1942. Promoted to regimental sergeant-major, he was commissioned, while overseas and later was attached to the British Army for special work in Southeast Asia. Lt. Col. Stewart was discharged from the Army last August.

ANTLER-SHEDDING TIME

Our zoologists tell us that moose and deer shed their antlers during a period extending from December to March, the older animals losing their first. Surprisingly few antlers are found lying about the woods since rodents such as squirrels, mice and porcupines gnaw away at them. Antler is one of the hardest types of bone, too.

New York City has 619 miles of subways, of which 313 miles are actually underground.

The average size for east coast salmon is 10 to 15 pounds. 2711

CLASSES DOMESTIC WORK AS SKILLED

VANCOUVER.—No longer can women who visit homes to assist in daily work be regarded as unskilled labor, is the belief of Eleanor S. Morley, supervisor of the women's division of the National Employment Service.

"These people must be classed as household workers," she said. "They are as highly skilled."

The stigma attached to household workers was one reason there was such a shortage of them, she said. Before the war they received as little as five dollars monthly with room and board. Now they are getting 50 cents an hour and more.

"Would-be employers must learn to accept their household help on the same basis as their business employees," she said. "We have a substantial waiting list of employers, but unless conditions change, the help situation this summer will be in even shorter supply than now."

AVOIDING COLDS

Here's the way National Health authorities suggest one may avoid respiratory infections—most common during cold weather: eat regularly, having well-balanced meals; sleep in well-ventilated rooms, clean out impurities of the air-passages by deep breathing, and stay away from obvious cases of sore throat and head cold.

It came, but Krueger can't use it. The 3 1/2 foot width is too wide to permit it to fit between the chairs of seatmates.

FOOD COMBINATIONS

Pointing out that not even milk is a perfect, self-sufficient food, nutritionists urge inclusion of all the nutritional factors in diet, by combining such edibles as milk, fruit, vegetables, cereals, bread, meat or fish, so that a meal will provide all the essentials to maintenance of health.

CHICAGO YOUTH GETS NEW FACE

GRAND RAPIDS, Mich.—David Ruge, 16-year-old Chicago boy who admitted attempting to extort money to finance a facial operation to eliminate "ape-like" features, was released from a hospital here, his doctor expressing complete satisfaction with the surgery.

The operation was performed Jan. 15 by Dr. Farris Smith, internationally known plastic surgeon.

David left Grand Rapids in company with relatives, Dr. Smith said.

David has seen his face in the mirror every day since the operation during changes of dressings, Dr. Smith explained, and has frequently expressed "delight" over the results.

He added that the structure of bones and muscles originally had given the boy "a perpetual scowl of a particularly ferocious nature."

FERTILIZER CONSUMPTION

Fertilizer consumption in the United States in 1946 was more than double that used in any previous year, according to an article in the American Fertilizer Magazine. It is estimated that fertilizer used in the U.S. during 1946 amounts to 200 pounds for every man, woman and child in the country. This compares to an estimated Canadian fertilizer consumption equal to approximately 100 pounds per capita, reports C-I-L Agricultural News.

SHORT STORY—

A LOVELY DAY FOR LAURA

By G. PATRICIA WARBURTON

THE sun shone brightly through the window making intricate patterns on the carpet, and the soft breeze casually ruffled the drapes.

It was very quiet in the room, but outside the birds were singing sweetly and the scent of flowers was poignant. It was one of those rare, unforgettable days of the early summer when Nature seemed to have bewitched herself with the beauty spread so lavishly everywhere, and now lay breathless and inanimate.

Douglas Marjorie turned from the window to look at his wife, thinking, "How young she looks!"

Her long, dark lashes curled up from her white skin, and she noticed a faint sprinkling of freckles across her nose.

He remembered the first time he had watched her as she lay sleeping. After awhile she had opened her eyes, smiled slowly and sleepily at him, and murmured, "Hello, you," then twined her fingers around his.

His heart had contracted at this gesture, and he felt a quick surge of tenderness and protectiveness, and bending down, had buried his face in her hair, whispering huskily, "Darling, darling, I love you."

Their three-week honeymoon had been heaven, but even now, after three years, Laura seemed somehow to make every day exciting and happy.

She was interested in everything and everybody. Children, animals, her precious garden, on which she spent so much time and energy, the gifts he brought her, especially the amusing ones, like the parrot that talked, or mostly aware and which they had finally sold back to the pet shop. She was absorbed with everything that came her way.

She had been twenty-three when

hustle, last-minute shopping and gay festivities, and threw herself with intense concentration into feverish preparations. Two or three days before Christmas they trimmed the tree.

Christmas Eve, all the presents were spread under the tree in a galaxy of colour and fancy wrappings, and next morning they had a wonderful time unscrambling them all. Relatives and friends' presents were put back under the tree, and their own were put on one side to be taken back to bed to be opened.

They always bought each other one good present, one funny present, and two or three small ones.

Laura usually spent the rest of the morning rushing back and forth answering the doorbell, welcoming visitors, distributing presents and dispensing cheer in the way of shortbread, fruit cake and other delicacies, while he was busy mixing his own special Christmas punch.

In the afternoon, they visited some of their friends, and later had dinner with Laura's family.

He sighed wearily. How different it seemed to be getting warmer outside. The scent of flowers grew heavy in the room. Douglas thought how Laura would hate to miss even a minute of such a perfect day, and wished again that she would awaken and smile a greeting at him.

Suddenly, from the room overhead, the thin, fretful cry of a new baby startled him, and he was aware that he had been day-dreaming and lost in memories for a long time. He was also conscious of the low murmur of voices.

Again the baby whimpered, and still Laura did not stir.

He was vainly trying to gather his wandering thoughts when a tall man with a kind face quietly entered the room and spoke to him.

Then he remembered, Laura was not going to wake—not even—the small daughter, whimpering in the nursery, remained—and the lovely, lovely day.

Will Loan Priceless
Stamp Collection

The King will loan a portion of the priceless Royal stamp collection for the centenary international philatelic exhibition in New York next May. It was disclosed.

Two of the most valuable stamps in the collection are the famous pair of Mauritius penny orange red and two penny blue. The latter, the only perfect specimen in the world, is valued at \$10,000 (\$40,000).

25¢OUR UNEMPLOYMENT
INSURANCE FUND UP

OTTAWA—Though payments from Canada's unemployment insurance fund went over the \$50,000,000 mark last year, the fund swelled by a net \$41,000,000, the unemployment insurance commission announced.

Balance in the fund at the end of 1946 was \$37,222,000. The climb was achieved despite the fact that 1946 disbursements of \$3,900,000 were more than 3½ times the next-highest annual total of \$14,500,000 paid out in 1945.

The heavy rise in benefit payments, however, resulted in a smaller net increase in the fund than was the case in 1945.

Employer-employee contributions amounted to \$4,985,000, compared with \$60,838,000 the year previous. Regular government contributions moved up from \$12,417,000 to \$14,187,000.

In addition, two special contributions by the federal government aggregated \$9,000,000. One for \$5,007,000, was to cover time spent in the armed forces allowed to veterans free of charge under unemployment insurance after becoming established for 90 days in insurable civilian employment. The other, \$373,000, was to provide credits for wartime merchant seamen to qualify for free time under the insurance act.

Interest and profits on investments brought the fund \$7,207,000 last year, compared with \$5,574,000 in 1945.

Northern Trapper
Bothered By Mosquitoes

THE FAS, Man.—It may be the coldest winter northern Manitoba has experienced in 10 years but Alex Jones, bachelor trapper of the Falls Island district, five miles east of The Pas, is complaining about mosquitoes. Not only that but he answers doubting and quizzical looks by flipping back his parka hood to reveal several sizeable bumps.

"Mosquito bites," he explains. "Not only that but I kill four or five every day in my cabin. They come through the floor. I figure if they can stand the winter, they will probably be pretty tough by the time summer comes."

Jones believes they breed in the muskeg under the cabin and the warmth of the stove makes them think summer is here. Once they find it cold they try to keep warm by flying around. "They're easy to kill, right now. Oh, I don't mind them, but the trouble is when they bite, they itch. When I scratch and when I scratch, nobody believes it's just mosquitoes in winter."

SELECTED
RECIPES

SOFT CRUMB COFFEE CAKE

• 3 cups sifted flour
• 4 teaspoons baking powder
1½ teaspoons salt
¾ cup sugar
¾ cup shortening
2 eggs, well beaten
1½ cups milk

Crumble or Honey Nut Topping
Sift four ounces, measure, add baking powder, salt, and sugar, and sift together into bowl. Cut in shortening until mixture looks like coarse meal. Combine eggs and milk; add to flour mixture and mix only enough to dampen flour. Spread in a greased 10x10x2-inch pan. Sprinkle with topping. Bake in moderate oven (350 deg. F.) 35 to 40 minutes.

Crumble Topping—Mix 4 tablespoons sugar and ¼ teaspoon cinnamon. Add to 1½ cups soft bread crumbs and toss with 4 tablespoons melted butter. Add 4 tablespoons chopped nuts and sprinkle over coffee cake before baking.

Honey Nut Topping—Cream ¼ cup butter with ½ cup brown sugar and ¼ teaspoon salt. Add ¼ cup each egg and honey; and ½ cup chopped nuts. Beat to mix. Then stir in 3 tablespoons hot water and sprinkle over coffee cake before baking. Corn syrup may be used instead of honey.

NOT A QUITTER

Frank P. Grant of Wichita, Kas., who didn't quit work until he was 95, died recently at the age of 106. He was only persuaded to retire in 1936 from his job as a scissors grinder after he was struck by a train and seriously injured.

Used to Wake Up
with a HeadacheNow Fresh and Lively
Every Morning

Here is a man who woke up most mornings with a dull headache. What a lovely way to start the day! But Kruschen transformed his life, according to his letter—

"I used to wake up in the mornings with a dull headache. A year ago, I started taking Kruschen Salts regularly. Today, I wake up fresh and lively and can do my day's work without undue exertion. I find Kruschen Salts a great help, and have not been so healthy for a long time. I can recommend Kruschen for anyone suffering from headaches and constipation. I'll never be without Kruschen as long as I live!—E.P."

Dull headaches such as this may suffer from can often be traced to a disordered stomach and to constipation because of waste material which remains in the system. A small dose of Kruschen taken regularly in the morning promptly helps to remove this condition. And that is how Kruschen acts to relieve such headaches.

Try Kruschen for relief of morning headaches and sluggish feelings. 25¢ and 50¢ at all drug stores.

Post-War Peaks Seen
In U.S. Steel Output

CLEVELAND.—Steel production has increased to the highest level attained since the war and is headed toward new post-war peaks, the Magazine Steel said recently.

Prospects are that, a balancing of supply and demand is still some months off, the magazine predicted an excess in requirements of flat rolled products, including plates, beyond the second quarter of 1947. Some leaders anticipate that a satisfactory balance in most grades of sheets and strip will not be reached until next year. The supply of alloys is adequate.

GREAT SHORTAGE

Canada has a shortage of 4,000 dentists, 6,000 dentists, innumerable nurses and \$175,000,000 worth of hospitals and equipment, according to Mr. George Hoadley, of Toronto, president and general manager of the Health Study Bureau.—Canada's Weekly.

Local and General Items

Mr. and Mrs. Gordon Steeves are visiting Calgary this week.

Miss Helen Pilfold has accepted a position at Grimshaw, Alberta.

The local fire brigade was called out on Monday afternoon to extinguish a blaze which started on the roof of Mr. T. Hadwell's home.

An income-tax form was returned recently with the following remark: "Sir, I belong to the Foresters and don't wish to join the Income Tax."

As usual, the current bonspiel had to be finished and semi-finals and finals played on ice covered with water owing to the thaw. Seems the 'spiel is never favored with good ice for the stalwarts to display their best.

On Wednesday evening Mrs. F. M. Pinkney was pleasantly surprised when a few of her friends called and presented her with a corsage and bouquet of carnations, an enjoyable evening was spent ending with refreshments.

Blairmore Bearcats and Blairmore OC Juniors are both in the provincial hockey playoffs, opposing two Medicine Hat teams this week. The Bearcats won the first game of their series on home ice 5-4 on Wednesday, while the Juniors secured a 4-4 tie at the Hat. The second game of the junior series is to be played here tonight and the 'Cats go to the Hat tomorrow.

There have been several changes in local bank staffs in the past few days, and there is at least one due within the next month. Alvin C. E. Wright of Lethbridge recently joined the staff of the Bank of Nova Scotia as a junior clerk. George Jealous has left the Royal Bank of Canada to take over the position of accountant with the General Motors Garage, at Blairmore.—Lethbridge Herald.

Born to Mr. and Mrs. Henry Lenucha, on Monday, February 10th, at Perry's maternity home, a son.

Albert Stella and Jack Patterson Jr. left on this afternoon's bus to spend a few days in Spokane.

A farmer saw a sign that read: "Ladies Ready to Wear Clothes." "Well," he exclaimed, "it's darn near time!"

BESL No. 7 Curlers claim they set their sights on jackets as prizes—if we can believe Oliver, Martini, Daigault and Anderson—so that's that.

"Kleerex" clears up skin ailments—Eczema, Itch, Fingles, Psoriasis, etc.—quickly, effectively. 50 cents \$1.00. All druggists—or write Kleerex Mfg. Co., Winnipeg.

LOST
A wallet containing quantity of money, pictures, personal papers, liquor permit, belonging to Jos. James, c/o Manning & Co. Finder please leave with Chief of Police or The Graphic office. Twenty dollars reward.
